Following each description, there is a detailed spreadsheet showing the budget and monthly expenditures for that grant award. **Please note:** the first programmatic or "narrative" quarterly reports for the June 1 through September 30 grant performance period were received from all grantees on October 31, 2024.

24NLJR01: Partnership Douglas County (PDC): \$70,001

Project name: Douglas County MOST and FASTT Program Expansion

Overview:

Douglas County established two programs to combat substance use disorders and create behavioral health resources to stabilize individuals at risk for opioid overdose or experiencing crisis due to substance. The programs are the:

- Mobile Outreach Safety Team (MOST) run by the Douglas County Sheriff's Office.
- Forensic Assessment Services Triage Team (FASTT) program managed by PDC.

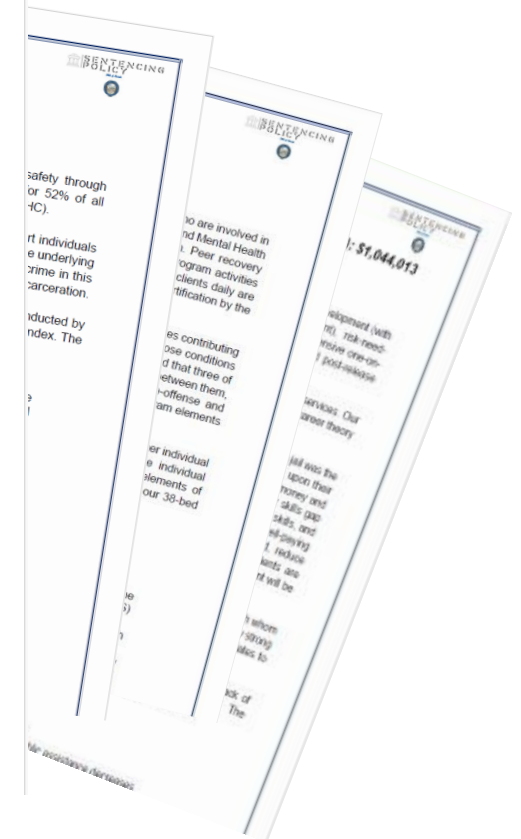

MOST is a deflection strategy and FASTT is diversion. Deflection refers to rerouting individuals with mental health needs away from the justice system at the earliest possible points of contact. Diversion prevents individuals from moving more deeply into the criminal justice process after they have already become formally justice involved.

Goals:

- Expand hours from 10 to 20 hours per week for the FASTT program coordinator to go to the Douglas County Jail.
 - Increase services to 10 low-risk offenders.
 - Provide robust assessment and case planning services to ensure all moderate-to-high risk clients, being discharged from jail, have access to resources and a smoother transition back into the community.
 - Offer 30-day post-release follow-up.
- Suicide Prevention Network to offer a Men's and Women's Mental Health series at Douglas County Jail twice a month and serve 20 men and 20 women per year.

Accomplishments to Date:

- Contract with Suicide Prevention Network started July 1, 2024, but SPN was not
