

Victoria Gonzalez,

9-21-2022

My name is Harold Leventy #91424, I am currently housed at Warm Springs Correctional Center in Carson City, Nv.

I've got a few Questions you might be able to answer;

1) Is there any upcoming legislation or Amendments being made to ~~A.B. 236~~ A.B. 236?

In 2019 I was sentenced to 10 yrs to Life for high level Trafficking (Possession of 28 grams or more.)

I had 29.65(+/-) .65 "under old Law" NEW Law as of July 1st, 2020. (28.0 grams to 48.0, grams) is now only a (B) Felony punishable By 1 yr to 10 yrs max in prison. I was left behind on A.B. 236 Due to Law not being retroactive.

Is there being any effort to give people such as myself Relief from our extremely long non-violent prison terms? If there is can you please inform me as to what it is? And when it's going to be voted on?

2) We here in the prison system have been told either your office or other's are fighting for us or other's who were sentenced before A.B. 236 and now the laws around that we were sentenced under have changed but didn't implement retroactively? We've been told (1) thing on the Agenda is to fight for a "Sentencing Review Board?"

3) And final question, If you can't answer my questions, can you please tell me who I can write to ask these questions?

I've been in prison 4 years on a non-violent drug charge, unable to get work time, or maritorous time because I was sentenced under old outdated laws. I'm here for another 6 years on a charge that under new law I would have been home to help raise my kids, years ago if made retroactive.

I would be eligable to go to a "Drug treatment" program if the law was ammended to go back and be retroactive a few years back. Ect.,.,

Please ADD my letter as public comment at your next meeting. You have my permission to do so.

Thank you for your time and help over the past couple years I have written to you and your office...

Harold Leventry
